Introduction

Purpose

This document provides a summary of what was heard during a consultation session for the *Municipal Government Act* (MGA) review. The summary below includes the comments and opinions of the participants of the Planning and Development Technical Session held in Vermilion.

These contributions have not been reviewed or edited for accuracy. Comments recorded here reflect the opinions of individuals offered in person and recorded by session facilitators; they do not necessarily represent the opinion of the Government of Alberta.

The input summarized below will be considered by Alberta Municipal Affairs as part of the review of the legislation. Municipal Affairs would like to thank the participants of this session, as well as all Albertans participating in the review of the MGA. Any inquiries related to this summary or to the consultation process should be directed by email to the MGA Review Team at mga.review@gov.ab.ca.

The Municipal Government Act Review

The MGA is designed to help build strong, prosperous and sustainable communities throughout Alberta. Alberta Municipal Affairs is reviewing and refreshing the MGA to address evolving circumstances and priorities in Alberta's many communities, and to ensure the MGA continues to meet its objective. A successful MGA review process will continue to position Alberta as the leading Canadian jurisdiction in terms of municipal legislation, having incorporated sound thinking, input and research into a clear Act that meets the needs of the Province and municipalities. In order to achieve this vision, an inclusive and comprehensive engagement process was developed to ensure stakeholders across the province have opportunities to provide input to the review.

As part of the MGA review, regional consultations were held in eleven locations around the province to give Albertans an opportunity to provide input face-to-face. In each location, different types of sessions were held, including Technical Sessions, a Business and Industry Session, a Municipal Administrators Session, an Elected Officials Session, and a Public Open House.

These engagements were conducted in February 2014 to April 2014 in 11 locations throughout the province. Each location was held over 3 days in the following locations::

- Brooks
- Calgary
- Edmonton
- Edson
- Fort McMurray
- Grande Prairie
- Lethbridge
- Medicine Hat
- Peace River
- Red Deer
- Vermilion

Sessions were promoted via news releases, direct email invitations, social media, and by the Minister of Municipal Affairs at stakeholder conventions. Information on regional session locations, dates and registration were on the MGA Review website.

Input to the MGA Review has also been provided through other channels, including the MGA Review website (mgareview.alberta.ca), the MGA Review Consultation Workbook, and official submissions.

Session Overview

Session	Planning and Development Technical Session
Location	Vermilion Regional Centre, Vermilion
Date	February 19, 2014
Number of Participants	3

- This session was open to anyone who wished to attend. Participants were asked to register in advance in order to receive background materials before the session.

Regional Consultation Methodology

How sessions were organized

Regional consultations were structured around one or more of the three themes of the MGA Review:

- Governance and Administration
- Assessment and Taxation
- Planning and Development

Participants were provided with agendas in advance, which identified a list of potential topics for discussion. These topics were taken directly from the MGA Review Consultation Workbook. Several of the topics for discussion appear under more than one of the three themes of the review because they are relevant to more than one theme (e.g. public participation). The agenda is attached as Appendix A.

At this session, participants provided input through facilitated table discussions. The goal of the facilitated conversations was to give the opportunity to all participants to discuss the issues that mattered most to them. Given the large size and scope of the MGA, participants at each table were asked to focus their discussion on those topics that they felt were most important to provide input on, using the list provided in advance. In addition, this session included time for “open discussion” during which participants could provide any additional input that they felt was important to the review. Table facilitators and note takers included staff from Municipal Affairs, KPMG and ADR Education.

Capturing input and reporting

Input from session participants was captured on flipcharts by facilitators during the discussion. It was explained to participants that:

- Comments were being recorded on flipcharts so that they could be captured and considered by Municipal Affairs as part of the review of the MGA.
- Comments would not be attributed to individuals or organizations.
- Other avenues were also available to provide written input to the review.

The summary below documents the input heard from participants and recorded on flipcharts. These comments have been transcribed and organized according to the list of topics for discussion; they have not been screened for accuracy and do not reflect consensus of participants. As a result, comments and opinions listed may be contradictory. Comments that apply to issues outside of the scope of the review (e.g., suggested changes to other legislation) have been removed.

It is important to emphasize that this summary reflects the input heard from participants, and does not necessarily reflect the position of the Government of Alberta.

How the Summary of Responses is Organized

Input from session participants is organized according to the three themes for the review:

- *Governance and Administration*
- *Assessment and Taxation*
- *Planning and Development*

Within these themes, comments are organized according to the applicable topics for discussion, using the list provided to participants in advance. In some sessions, not all themes may have been discussed.

Summary of Input

General Comments

The following input was received and documented related to the MGA in general. Comments from participants included that:

- Overall, the MGA is working well.

Planning and Development

The following input was received and documented related to planning and development.

Fees and Levies

Fees and levies

Comments from participants included that:

- The way that the MGA addresses obtaining levies on intersections makes it difficult for municipalities to get compensation for intersection improvements. This creates a need for separate compensation agreements.

Land Management and Planning Tools

Statutory plans and land use bylaws

Comments from participants included that:

- Intermunicipal development plans create challenges for implementation.
 - They are a good tool, but can be cumbersome for municipalities to prepare.
 - These plans can be a challenge to prepare as they need to bring together differing perspectives from the municipalities involved.

Land Dedication and Use of Reserves

Land dedication (reserves)

Comments from participants included that:

- The MGA needs to include more flexibility about what can be done with municipal reserve land.

- The MGA needs to allow for encroachment agreements. These agreements need to recognize innocent encroachments, such as a fence over a border, as opposed to purposeful encroachments, such as fences or trees on reserve easements.

Regional Approaches

Municipal relationships and dispute resolution

Comments from participants included that:

- Incentives for regional projects should be encouraged without pushing municipalities towards a regional government.
